Description of problem that CONTINUES TO EXIST: list only one problem	Repair Visits	Date In	Date Out	Mileage
While the car is on + operating in "Drive" - the car completely shuts down + displays a "power safety now" message. It becomes inoperable wherever the car is. This has happened 3 times to me and once for a mechanic in the Ford service center. when it shuts down, you become stranded as the computer that operates the car will not turn off or on for an indiscriminant amount of time.	1st visit	10/28/13	10/31/13	6117
